Disclosure of Unlabeled Use

The faculty of this educational activity may include discussions of products or devices that are not currently labeled for use by the FDA. Faculty members have been advised to disclose to the audience any reference to an unlabeled or investigational use.

No endorsement of unapproved products or uses is made or implied by coverage of these products or uses in our reports. No responsibility is taken for errors or omissions in reports.

Please refer to the official prescribing information for each product for discussion of approved indications, contraindications and warnings.

Target Audience

This activity has been designed to meet the educational needs of US pulmonologists, allergists, immunologists, and primary care physicians

Program Description

This CME activity reviews the risk factors of AAT deficiency and strategies to prevent disease progression. Strategies for improving detection and management of the disorder are also highlighted.

Educational Objectives

Upon completion of this activity, participants should be better able to:

- Describe the epidemiology, pathophysiology, and clinical presentation of AAT deficiency
- Implement accurate and timely screening and diagnostic work-up for AAT deficiency
- Discuss appropriate treatments for AAT deficiency and review evolving therapies used in the management of this disorder

Accreditation Statement

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Florida College of Medicine and PVI, PeerView Institute for Medical Education. The University of Florida College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation Statement

The University of Florida College of Medicine designates this educational activity for a maximum of 0.5 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Hardware/Software Requirements

PeerView Press requires minimum browser versions of: 6.x from Microsoft and Netscape; 2.x from Mozilla Firefox; or 3.x from Safari. Certain activities may require additional software to view. That software may be: Adobe Reader®, and Adobe® Flash Player.

Privacy Policy

PeerView Press shares your concerns about maintaining the privacy of personal information collected on the Internet. PeerView Press ensures that confidentiality of data relating to individual visitors to a medical/health web site, including their identity, is respected by this web site. The web site owners undertake to honor or exceed the legal requirements of medical/health information privacy that apply in the country and state where the web site and mirror sites are located.

Privacy Policy Changes:

Minor changes to our privacy policy may occur. If privacy policies change in a way that significantly affects the way we handle personal information, we will not use the information we have previously collected without obtaining consent. We will post all privacy policy changes on our web site in a timely manner.

Collection of Personal Information from Site Users:

Visitors to PeerView Press can access and browse the site, without disclosing any personally identifiable information. PeerView Press does track some information provided by your browser, such as the time and date of access, the web site you came from, the type of browser used, and other information that does not personally identify you. Visitors registering for services such as email updates, or completing program evaluation forms are requested to provide personal information, such as name, contact information, and medical specialty. We clearly label which information is required for registration, and which information is optional, on our registration forms. PeerView Press will not collect personally identifiable information without consent and will not share this data with any external partners.
