Target Audience

This activity has been designed to meet the educational needs of oncologists, nurses, and other clinicians involved in NSCLC management.

Program Description

In this activity, an expert in non-small-cell lung cancer (NSCLC) discusses the rationale for studying maintenance therapy in NSCLC settings and the clinical implications of new data on the maintenance use of active cytotoxic agents and targeted therapy in patients with advanced NSCLC.

Educational Objectives

Upon completion of this activity, participants will be able to:

- Discuss the potential clinical impact of maintenance therapy on the current treatment paradigm for advanced NSCLC, including its potential effects on outcome and safety
- Demonstrate knowledge of updated safety and efficacy findings from clinical trials of maintenance therapy with cytotoxic agents and targeted therapy
