Disclosure of Unlabeled Use

The faculty of this educational activity may include discussions of products or devices that are not currently labeled for use by the FDA. Faculty members have been advised to disclose to the audience any reference to an unlabeled or investigational use.

No endorsement of unapproved products or uses is made or implied by coverage of these products or uses in our reports. No responsibility is taken for errors or omissions in reports.

Please refer to the official prescribing information for each product for discussion of approved indications, contraindications and warnings.

Target Audience

This activity has been designed to meet the educational needs of US-based cardiologists, endocrinologists, and primary care physicians who are active in the management of patients with dyslipidemia.

Program Description

In this activity, experts in management of dyslipidemia discuss the optimal assessment of cardiovascular risk in patients with dyslipidemia, including the role of novel markers such as hs-CRP; optimal treatment goals based on cardiovascular risk; and strategies to maximize adherence to long-term therapy and lifestyle interventions.

Educational Objectives

Upon completion of this activity, participants will be able to:

- Implement comprehensive risk assessment strategies for patients with dyslipidemia, including the use of novel markers
- Establish optimal goals of treatment for patients with dyslipidemia, based on recent data and evidence-based guidelines
- Improve adherence to therapy and lifestyle interventions for patients with dyslipidemia

Accreditation and Credit Designation Statements

Physicians

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Michigan Medical School and PVI, PeerView Institute for Medical Education. The University of Michigan Medical School is accredited by the ACCME to provide continuing medical education for physicians.

The University of Michigan Medical School designates this educational activity for a maximum of 0.75 *AMA PRA Category 1 Credit*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Nurses

Amedco is an approved provider of continuing nursing education by the Wisconsin Nurses Association Continuing Education Approval Program Committee, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

The course is co-provided by Amedco and PVI, PeerView Institute for Medical Education. 0.75 contact hour(s).

Note: Not all state nursing boards will accept programs less than 1.0 hour in length for credit. Please go to www.peerviewpress.com/g2/e21 to find out the status of your state.

Hardware/Software Requirements

PeerView Press requires minimum browser versions of: 6.x from Microsoft and Netscape; 2.x from Mozilla Firefox; or 3.x from Safari. Certain activities may require additional software to view. That software may be: Adobe Reader®, and Adobe® Flash® Player.

Privacy Policy

PeerView Press shares your concerns about maintaining the privacy of personal information collected on the Internet. PeerView Press ensures that confidentiality of data relating to individual visitors to a medical/health web site, including their identity, is respected by this web site. The web site owners undertake to honor or exceed the legal requirements of medical/health information privacy that apply in the country and state where the web site and mirror sites are located.

Privacy Policy Changes:

Minor changes to our privacy policy may occur. If privacy policies change in a way that significantly affects the way we handle personal information, we will not use the information we have previously collected without obtaining consent. We will post all privacy policy changes on our web site in a timely manner.

Collection of Personal Information from Site Users:

Visitors to PeerView Press can access and browse the site, without disclosing any personally identifiable information. PeerView Press does track some information provided by your browser, such as the time and date of access, the web site you came from, the type of browser used, and other information that does not personally identify you. Visitors registering for services such as email updates, or completing program evaluation forms are requested to provide personal information, such as name, contact information, and medical specialty. We clearly label which information is required for registration, and which information is optional, on our registration forms. PeerView Press will not collect personally identifiable information without consent and will not share this data with any external partners.
