Target Audience

This activity has been designed to meet the educational needs of oncologists.

Program Description

In this activity, an expert in breast cancer discusses goals and challenges in the management of metastatic breast cancer, and how these goals can be best met through individualized therapy.

Educational Objectives

Upon completion of this activity, participants should be better able to:

- Describe the challenges associated with treatment of metastatic breast cancer
- Discuss the treatment goals for patients with metastatic breast cancer
- Review the therapeutic options available for the treatment of patients with advanced breast cancer

Accreditation Statement

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Florida College of Medicine and PVI, PeerView Institute for Medical Education. The University of Florida College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation Statement

The University of Florida College of Medicine designates this educational activity for a maximum of 1.0 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Hardware/Software Requirements

PeerView Press requires version 6.x browsers or higher from Microsoft or Netscape. Certain activities may require additional software to view. These activities will be marked as such and will provide links to the required software. That software may be: Adobe Reader®, and Adobe® Flash Player.

Privacy Policy

PeerView Press shares your concerns about maintaining the privacy of personal information collected on the Internet. PeerView Press ensures that confidentiality of data relating to individual visitors to a medical/health web site, including their identity, is respected by this web site. The web site owners undertake to honor or exceed the legal requirements of medical/health information privacy that apply in the country and state where the web site and mirror sites are located.

Privacy Policy Changes:

Minor changes to our privacy policy may occur. If privacy policies change in a way that significantly affects the way we handle personal information, we will not use the information we have previously collected without obtaining consent. We will post all privacy policy changes on our web site in a timely manner.

Collection of Personal Information from Site Users:

Visitors to PeerView Press can access and browse the site, without disclosing any personally identifiable information. PeerView Press does track some information provided by your browser, such as the time and date of access, the web site you came from, the type of browser used, and other information that does not personally identify you. Visitors registering for services such as email updates, or completing program evaluation forms are requested to provide personal information, such as name, contact information, and medical specialty. We clearly label which information is required for registration, and which information is optional, on our registration forms. PeerView Press will not collect personally identifiable information without consent and will not share this data with any external partners.
