www.peerviewpress.com/pc2/p118

Target Audience

This activity has been designed to meet the educational needs of ophthalmologists and retinal specialists.

Program Description

In this CME activity, an expert in the management of age-related macular degeneration discusses recent data on the incorporation of anti-VEGF agents—either alone or in combination—into treatment regimens.

Educational Objectives

Upon completion of this activity, participants should be better able to:

- Discuss challenges and issues in management of exudative macular degeneration
- Review most current clinical data on novel therapies for exudative macular degeneration
- Integrate novel therapies for exudative macular degeneration into clinical practice

Accreditation Statement

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Michigan Medical School and PVI, PeerView Institute for Medical Education. The University of Michigan Medical School is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation Statement

The University of Michigan Medical School designates this educational activity for a maximum of 1.0 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Privacy Policy Changes:

Minor changes to our privacy policy may occur. If privacy policies change in a way that significantly affects the way we handle personal information, we will not use the information we have previously collected without obtaining consent. We will post all privacy policy changes on our web site in a timely manner.

Collection of Personal Information from Site Users:

Visitors to PeerView Press can access and browse the site, without disclosing any personally identifiable information. PeerView Press does track some information provided by your browser, such as the time and date of access, the web site you came from, the type of browser used, and other information that does not personally identify you. Visitors registering for services such as email updates, or completing program evaluation forms are requested to provide personal information, such as name, contact information, and medical specialty. We clearly label which information is required for registration, and which information is optional, on our registration forms. PeerView Press will not collect personally identifiable information without consent and will not share this data with any external partners.
